Re: Protocol Title:
Task Shift Analysis in Primary Care Workforce Planning in Ireland.
REC Ref: 147/18

Dear Mr Feerick,

I am in receipt of your proposal as above submitted for review by our Research Ethics Committee. I have reviewed the contents of same.

I wish to advise that I have given this study Chairperson ethical approval. You should note that your study cannot commence until you also receive AON approval which will issue from the Quality and Safety Department shortly. You are obliged to inform us as soon as your study is completed or if it terminates early for any reason.

I should take this opportunity to remind you of the importance of compliance with Data Protection Legislation and guidance at all times.

While this letter is granting ethical approval for your study, it is also necessary that you ensure you have local site access approval to conduct this research.

I wish you every success with your study.

Yours sincerely,

Pat Dillon,
Consultant Anaesthetist,
Chairperson, Research Ethics Committee.
